## Ride On - Cycling For All

We work with volunteers to refurbish donated bikes, putting 830 back into use in 2021, and over 4500 since 2011.

### Our Dr Bike Program

Thanks to funding from Cycling UK we have been delivering free bike safety checks in Exeter, and at community hospitals across the county.

We send a mechanic to carry out 30 minute bike check and tune ups, and to deliver short maintenance courses, such as puncture repair.

## We need

Sheltered locations for our mechanic to work for a day

- 3 x 3 metres space
- Can be outside if covered
- Don't need power access
- Hot water (for tea/coffee)
- Parking (sadly we'll need to drive)
- Can happen seven days a week (Sundays ideal)

\*Can you collect bike donations in the run up?

## We will provide

- A mixture of free 30 minute bike checks and free short maintenance courses (e.g. puncture repair)
- An online booking system
- Digital publicity materials and content
- Roughly 10 people will be able to benefit per visit
- Potentially, a small £ contribution for use of the space.
